Ethical Hacker · Full-Stack Developer · AI & Cybersecurity Researcher · Computer Hardware Specialist

PROFESSIONAL SUMMARY

Motivated B.E. (Artificial Intelligence) student at MMIT Pune with hands-on experience in ethical hacking, full-stack web development, and AI-powered security systems. Passionate about decentralized internet infrastructure, privacy-first architectures, and the responsible application of AI in cybersecurity. Certified in cybersecurity simulation (Deloitte/Forage), ethical hacking with AI (Internshala/NSDC), and foundational AI (IBM, AWS). Active freelancer on Fiverr delivering responsive, full-stack web applications using Next.js, React, and Tailwind CSS.

TECHNICAL SKILLS

Cybersecurity	Ethical Hacking, Log Analysis, Web Services Security, Threat Detection, Privacy Systems, Onion Routing, Zero-Trust Architecture
AI / ML	Machine Learning, Deep Learning, Computer Vision, NLP, TensorFlow, PyTorch, XceptionNet, MesoNet, HuggingFace Transformers
Web Development	Next.js, React, Tailwind CSS, Framer Motion, Node.js, MongoDB, HTML, CSS, JavaScript
Blockchain	Ethereum, Web3.py, Cryptographic Fingerprinting, Smart Contracts
Hardware	Computer Repair, Hardware Installation, Diagnostics, Software Troubleshooting
Other Tools	Python, C++, OpenCV, Plotly, Pillow, Figma, Prompt Engineering
Soft Skills	Thought Leadership, Technical Writing, Workshop Facilitation, Problem-Solving, Teamwork

WORK EXPERIENCE

Web Designer & Full-Stack Developer | **Fiverr (Freelance)**

Aug 2025 – Present · Pune, India · Remote

- Build custom, responsive full-stack web applications tailored to client specifications using Next.js, React, Node.js, MongoDB, and Tailwind CSS.
- Deliver e-commerce functionality including payment integration, product management dashboards, and speed-optimized deployments.
- Manage end-to-end project lifecycle from requirement gathering through design, development, and hosting setup.

Computer Hardware Specialist | **Self-Employed**

Jan 2025 – Present · Pune, India · On-site

- Diagnose and resolve hardware and software issues across desktop and laptop systems for individual and business clients.
- Perform hardware installations, upgrades, and system configuration to optimize performance and reliability.

PROJECTS

Fiduscan (formerly DeepGuard) — AI Deepfake & Content Detection Platform

Jun 2025 – Present · MMIT Pune

- Developing an AI-powered platform to detect deepfakes and AI-generated media (images, video, audio, text) using trained ML models including XceptionNet and MesoNet.
- Integrated blockchain (Ethereum/Web3.py) for tamper-proof cryptographic fingerprinting and authenticity verification of detected media.
- Implemented invisible digital watermarking for copyright protection and content provenance tracking.
- Tech stack: Python, TensorFlow, PyTorch, OpenCV, HuggingFace Transformers, Ethereum, Web3.py, JavaScript.

Gaming E-Commerce Frontend

Feb 2025 · Personal Project

- Built a responsive, performance-optimized frontend for a gaming accessories e-commerce platform using Next.js, React, Tailwind CSS, and Framer Motion.
- Focused on modern UI/UX design, mobile responsiveness, and smooth animation interactions; backend integration in progress.

"Hidden Networks" LinkedIn Research Series

Jan 2025 · Public Thought Leadership

- Authored a 7-part in-depth series analyzing decentralized internet systems (Freenet, I2P, ZeroNet, Usenet, Cypherpunk Remailers) and their relevance to AI-regulated, privacy-first internet architectures.
- Posts collectively reached 1,500+ impressions; series positioned author as an emerging voice in internet infrastructure research.

EDUCATION

Bachelor of Engineering — Artificial Intelligence & Data Science | [Marathwada Mitra Mandal's Institute of Technology \(MMIT\), Lohgaon, Pune](#)

Sep 2024 – Present · Pune, Maharashtra, India

- Relevant skills: C++, Machine Learning, Data Science, AI Systems

Higher Secondary Certificate (HSC) | [Akash Public School and Junior College](#)

2022 – 2024 · Pune, India

LICENSES & CERTIFICATIONS

Deloitte Australia — Cyber Job Simulation | [Forge](#)

Aug 2025 · Credential ID: dwwzw6ZMAxoTB5pdp

- Completed simulation covering web activity log analysis, cyber breach support, and suspicious user activity identification.

Ethical Hacking with AI | [Internshala Trainings / NSDC \(Government-Affiliated\)](#)

2024 ·

- Completed government-affiliated training in ethical hacking methodologies augmented with AI-based techniques.

Introduction to Artificial Intelligence | [IBM](#)

2024 ·

Generative AI Fundamentals | [Amazon Web Services \(AWS\)](#)

2024 ·

COMMUNITY & LEADERSHIP

8-Week Digital Literacy Awareness Drive — MMIT Pune

Dept. of AI & Data Science · Guided by Mrs. Pallavi Gulve · 2024

- Co-led an 8-week awareness program for secondary school students covering digital literacy, coding fundamentals, emotional intelligence, teamwork, and emerging technologies.
- Program culminated in a final student project showcase; helped participants build confidence and early exposure to 21st-century skills.
